

Later from Mexico.  
From the New Orleans Delta.

We are in receipt of files of the *Siglo*, *Monitor*, and *Universal*, from the Mexican capital, to the 1st ult., being seven days later than previous issues.

The Indians had been committing ravages at Encina-Gorda, and Mulemen in the State of Durango, burning ranches and taking the men, and carrying the women and children into captivity.

Some Castaneras had presented a resolution in the Chamber of Deputies of Congress, calling upon the Minister of War to inform that body of the measures taken by the General Government to assist the people of Yucatan in their war against the Indians. The Minister had laid his report before the Chamber, stating that upward of 500 Indians had fled to the coast to Yucatan under Gen. Romualdo de la Vega, and that desertions were becoming frequent, owing to the extremity to which the troops had been reduced in their bloody and prolonged contest with the Caribes. Senior Castaneras then presented a plan for relieving the necessities of the army in Yucatan, which was referred to an appropriate Committee.

A proposition had been introduced in the Chamber of Deputies to call a session and take other measures to protect the shipping of Vera Cruz.

The *Universal* was then discussing a bill imposing a tax upon god-fathers at the baptismal service. It was strenuously resisted by some of the Members.

The *Universal* contains a series of articles on the burdens and restrictions imposed upon Mexican vessels in the ports of Cuba and Puerto Rico, and proposing retaliatory measures.

The *Universal* had received an order from Mexico received on board a Vera Cruz, on the 22d ult., one 68-pounder and one 24-pounder, to be transported to Matamoras.

The *Universal* contains a letter from Matamoras, complaining of the weakness or complicity of the American authorities, in allowing the passage of Caravajal to walk about, allowing the slaves to go to test, and holding them publicly. It states that twelve of the thirteen leagues from Matamoras upward, five hundred men are encamped, declaring that they are the vanguard of the army from Texas, and that fears need be apprehended lest Matamoras be reduced to ashes.

After an animated debate the bill providing for the defense of the frontier had been withdrawn by the Committee of the Senate.

The U. S. schr. *Duane* anchored off Sacrificios on the 25th ult. from New Orleans. The schr. *American* had left New Orleans, arrived at Vera Cruz the same day.

Snow fell at Tampa on the 13th ult., being the first time in the history of that city.

Gen. Miguel Biacoo had left the Capital for Sonora with recruits, to augment the troops in the State to 1,500 men.

The American steamship Pacific touched at Acapulco on the 9th ult., on her voyage from San Francisco to San Juan del Sur, the Oregon on the 10th, bound for Panama, and the Orleans the same, also for Panama, both from San Francisco.

TERUPEC—The Chamber of Deputies of Congress had adopted a resolution, calling upon the Government for information in relation to the inter-oceanic communication across the Isthmus of Tehuantepec.
